Professional Summary

Driven Network Engineer at Jeddah Health Cluster with a passion for building robust network architectures. Expertise in troubleshooting and optimizing system performance to support mission-critical healthcare services. Actively pursuing CCNA certification to leverage advanced Cisco solutions and network security protocols in delivering high-standard digital infrastructure.

Education

- **Bachelor's in Information Technology | University of Tabuk | 2026**

Professional Training

Network Engineer | Jeddah Health Cluster (March 2026 – Present)

- Configuring and maintaining Cisco Catalyst switches and routers to ensure high availability.
- Diagnosing L2/L3 connectivity issues, including VLANs, STP, and Static/Dynamic Routing.
- Implementing security protocols to safeguard internal network infrastructure and patient data.

IT Intern | Tabuk Health Cluster (Cooperative Training)

- Developed a simulated network environment for training new IT personnel.
- Supported and maintained 100+ computing devices in a high-demand setting.
- Executed backup and recovery operations with a 100% success rate.

Professional Certifications

- 2nd Adobe After Effects | University of Tabuk | Nov 2024. 1st
- Networking Bootcamp | ETRA | Jan 2026.
- Cisco Certified Network Associate (CCNA) - (In Progress).

Courses & Training

- **Introduction to Databases (SQL)** Satr | Tuwaiq Academy | 7 hours | Jan 2026.
- **Power BI 103 (Intermediate)** Satr | Tuwaiq Academy | 13 hours | Jan 2026.
- **Introduction to Data Analysis** Satr | Tuwaiq Academy | 16 hours | Nov 2025.
- **Full-Stack Web Development** Satr | Tuwaiq Academy | 20 hours | Jan 2026.
- **Networking Program | IT Community** | 6 days | April 2024.
- **ETRA Networking Bootcamp ETRA** | 25 hours | Jan 2026.

Projects

EduMatch | University of Tabuk

- **Objective:** Developed an electronic platform designed to assist students in selecting the most suitable university major through an interactive and personalized experience.
- **System Analysis:** The platform utilizes algorithms to analyze users' interests, skills, and academic preferences to provide tailored recommendations.
- **Database Management:** Implemented a comprehensive database featuring former students' experiences, university reviews, and educational resources to support informed decision-making.
- **Technical Tools:** Utilized SQL for database management, UML modeling for system design, and UI/UX prototyping for the interface.

Skills

- **Technical Skills:**
 1. Networking Protocols: IPv4, IPv6, TCP/IP, OSPF, VLANs, STP, DHCP, DNS.
 2. Cisco Technologies: Cisco IOS, Packet Tracer, Routing & Switching.
 3. Network Security: ACLs, Firewalls, VPN fundamentals, Backup & Recovery.
 4. Tools: Wireshark, Putty, Git, GitHub.
- **Soft Skills:**
 1. Team collaboration and effective communication.
 2. Analytical problem-solving and time management.
 3. Fast learner and highly adaptable.

Languages

- **Arabic**
- **English**
